

Testimonials on Joseph Carringer and didgeridoo harmonic therapy

1/11/07

This is the wave of new science and energetic medicine. This is how the didge works. Regular docs in the trenches of everyday patient care are not ready for it, but the physicists sure are on the right track. Hopefully it won't take too much more time for the average doctor to catch on. It's a shame that the medical community is not more accepting of something so real, so profound and so curative. Just because we have not yet devised the tool to measure it, does not make it any less real.

Secondly, I just had a very spiritual experience that I would like to share. I had a recent joint replacement and have been suffering terribly with pain far out of proportion to the surgical trauma. Joseph boldly insisted on traveling to my house and working on my body and my soul today to ease my recovery. I felt like I was in the presence of a true priest who brought me the gifts of pure love and compassion. He gave suggestions for visualization and helped me focus my energies on healing and acceptance. He treated me with sound therapy for a while and then gave me some incredible intuitive feedback. Messages that I really needed to hear. This is profound medicine.

Thank you for the opportunity to let me share my experience. Please let me know what else I can do to support you and Joseph. He is so special!!!
