

Testimonials on Joseph Carringer and didgeridoo harmonic therapy

2/05/06

I have had several sessions working with Joseph Carringer and his didgeridoo. Each session put me into the space of complete stillness where I could feel the oneness with all. I felt at perfect peace and worked with the sound to release many old blockages. The sound of each didgeridoo was vibrating within my body with just the right sound to match by body's needs. This is an awesome experience in healing that resonates within each cell of the body in a complete awareness of its connection to the universe.
